NEWSLETTER 1

September 2008

Welcome to Energy Architecture's first quarterly email newsletter. We have included you in our mail out because of your connection with us, and our wish to stay in touch. Our future newsletters will include details about our people, projects of interest, practical information about systems and materials we're currently using, what's new with 'next', our events diary and more. If you forward a copy to a friend, they can use 'subscribe' to receive future copies. Should you wish to remove your address from our mail-out list, simply send an 'unsubscribe' email.

This is a PDF version of our
e-newsletter.

Some of the *links* features of this
publication will only work in the
digital version.

If you would like to receive the
digital version of our **e-newsletter**
please send an email to
subscribe@energyarchitecture.com

PROJECT SNAPSHOTS

Completed August 2008

Studio Residence, North Adelaide

Under construction

CONSULTANCY NEWS

Our practice has diversified since Energy Architecture established in 1990, including the Sustainable Development Consultancy in 2003. Way back in 1990, when Climate Change was a cosseted subject spoken of by few, John Maitland was at risk of attracting by default "mad greenie" status! Yet by 2003 such was the demand on his time and resources for consultation and advice on environmental issues that John established the new Consultancy.

CONSULTANCY AWARDS

Four recent awards are connected to work undertaken by our Sustainable Development Consultancy:

- > The **Lochiel Park Development** received an Award of Excellence in Urban Design ? Plans and Ideas Category and Planning Institute of Australia State Award for sustainable development to Peter Jensen Planning and Design, in conjunction with Energy Architecture and Oxigen 2008
- > The **Lochiel Park Development** was awarded a Planning Institute of Australia National Award for Planning 2008. Energy Architecture consulted from inception of the development through to contribution to the Design and the Guidelines in respect to built form and sustainability.
- > The **Mawson Lakes Development** was awarded:
 - The Property Council National Award for Sustainability for 2008 and
 - The HIA GreenSmart National Award for Best Development 2008.

Energy Architecture was engaged as Sustainability Consultants from 2004 - 2008.
